RUSSIA NOW CALLS HALT ON GRECIAN ATROCITIES

Soviet Seeks To Avert Further Devastation From The Turks

NOW IS DESERT

Fertile Plains And Farms Turned To Wilderness By Beaten Armies

(Easts News Agency)

Moscow, Nov. 16.—The following is the text of the note addressed by Mr. Chicherin, the Commissar of Foreign Affairs, to all Governments, protesting against the cruelties committed by the Greeks in Turkey:

"The inhuman and barbarous action of the Greek forces in Asia Minor compels the Russian Government to raise the question of the attitude taken by all the Governments towards this action, and to draw their attention towards the wanton destruction and barbarous privations to which entire regions of Turkey are subjected by the Greeks.

"Neutral observers and telegraph agencies have established the fact that that part of Turkey occupied by the Greek forces and evacuated by them on their retreat, has been turned into a desert. The Turkish villages on the way of the retreat of the Greeks have been burned, and the population has been literally exterminated or taken prisoner, while the women have been subject to the most barbarous violence. Among the entire Tukish population only those who succeeded in escaping to the woods and caves of the mountains were able to save themselves.

"The orders of the Greek Command are based on the decree of the Crown Prince Andrew, who has ordered the Greek forces to burn on their way all Turkish villages. Even Commander-in-Chief Populas of the Greek Armies has been giving orders to destroy Turkish settlements.

"The official communication from the Chairman of the National Assembly of Turkey, Yussuf-Khemal-Bei, dated September 28 to the Plenipotentiary Representatives of the Russian Republic, included a long list of the horrible actions taken by the Greek forces.

"Complete and detailed proofs are produced establishing the reports of devastation and cruelty committed by the Greek forces in the villages of Kozeldjokale, Iherel, Katar, Zaprehbar, Iherussky, Jenjen, Mejdomed, Kara-Ali, Cusnen, Beili and the region between Amsermlet Amandoi and Kurt.

"The city of Bilindjik has been pillaged and burned as well as the cities of Najum and Iseti-Bashi-Neli and others in the same region. The city of Kaimash and the villages of Fakki, Neushem and Melk, and all villages in the Boivadim district and other places have been reduced to the ground. The official communication contains extracts from the deposition of eye-witnesses.

"The Russian Government calls the attention of all Governments to the fact that the invading army of Greece is causing the flourishing territory of Turkey to lie waste and to turn into a desert. The Russian Government deems it absolutely necessary to approach all the Governments with the proposition of adopting measures for compelling the Greek Government to put an end to the needless devastation of Turkey by its army."

Stinnes and the government are now trying to find another basis for negotiations in raising securities for the loan needed to pay the January reparations installment.

Innocent, Served Two Jail Terms For Crimes She Did Not Commit

ALL England is interested in the pathetic case of Mrs. Rose E. Gooding, of Littlehampton, who has been released from Portsmouth Prison, after serving more than eight months of two sentences for crimes of which she has just been proven innocent. Mrs. Gooding, who is the mother of two small children, was sentenced to fourteen months and twelve days on being convicted of writing libellous messages. She appealed, and a decision was rendered against her. An investigation by Scotland Yard, recently completed, proved that it would have been impossible for Mrs. Gooding to have committed the offenses of which she had been convicted and sentenced. She was ordered released by the Court of Criminal Appeal in London.

MINSTREL SHOW OPENS TONIGHT AT THE OLYMPIC

"Ah craves Jazz."

With a rush of melody the big Shrine Minstrel Show will open tonight at the Olympic Theater where eighty dark faced comedians guaranteed as No. 1 gloom killers, will hold the boards.

Those who were fortunate enough to see the dress rehearsal on Wednesday night expressed belief that the show will be a worthy echo of the palmy days of Lou Dockstader, the daddy of all minstrels.

The opening of the show in regulation darktown style with Mr. Jack Raynes at the helm as interlocutor will mark the first public entertainment given by the Nomad Oasis of the Mystic Shrine, and the close.

Calamity, his brother, Gloom, and all the little Glooms started hunting holes yesterday when the members of the cast put the last touches on their parts and pressed out the wrinkles in their costumes. The Shrine has always been noted for the gorgeous regalia used by the members in their rituals and parades but the costumes which have been made especially for the performance have exceeded in bizarre grandeur the original Egyptian trappings of the first Shrine meeting.

The orchestra will be in charge of Harry Kerrey and is to dispense jazz numbers as well as provide accompaniment for the old plantation favorites.

Harry Dudley, of Pacific Coast fame, is listed to give several numbers.

The Shriners are giving the show to establish a John R. Hykes Memorial Scholarship, which is intended to pay the college expenses of an American boy or girl in China.

The Olympic Theater has been chartered for the three nights which will close on Saturday.

H. G. Wells' Pen Picture Of Disarmament Conference; He Discusses Its Objectives

Foremost Exponent Of World Unity Will Give His Report Of What Washington's Deliberations Are Accomplishing Toward Man's Freedom

FOREMOST writer on history in the making, Mr. H. G. Wells will follow the deliberations of the Washington Conferenee as a skilled critic and make his views known to the world through the TransPacific Public-Ledger Service which will be published exclusively in THE CHINA PRESS.

BY H. G. WELLS

MY first impressions of the Washington Peace Conference were that I believed that it would be only a social meeting, arranged and directed by skillful organisers. Indeed the Continental Hall is a fine structure and the meeting room for the conference is not too large for those around the table to become friendly with their neighbors. Nevertheless the room is spacious enough to hold many persons. In the middle are several tables covered with green woolen cloths.

In the space below, stands are reserved for newspapermen, and along the side, boxes for the diplomats and their wives. There is a space above reserved for the members of the United States Senate and House of Representatives. Friends and other privileged persons are permitted access to the Senate members.

When I entered, the room buzzed with conversations, everyone greeting friends and acquaintances. This reminded me of a first night in a London theater.

The last time I visited the United States I brought a top hat and morning clothes but had no occasion to wear them. Today everyone is wearing top hats and morning clothes; perhaps the conference insists that such things are necessary. I had some difficulty in realising that this was the opening day of an important conference, expected to usher in a new age in international relations.

In the meantime the noise of conversation died. Delegates of the principal countries entered the room. I had already become acquainted with their faces from the illustrated newspapers. The delegates took seats quietly. One seat was vacant, that was for President Harding. The President entered with handclapping and greeting everywhere. Truly, the proceedings resembled a first night at a theater. Then silence reigned. The President began to speak. The speech was a noteworthy one. It had very few adjectives but was effective. As the speech progressed the spectators in the balconies took an attitude similar to that generally taken by audiences in the cheap seats in London theaters. Whenever the president referred to the question of limitation of armaments there were great outbursts of handclapping, interruping the speech at times.

The President concluded by saying that the Cofference was open and then left the room.

Mr. Balfour then spoke, endorsed the statements of President Harding and also the proposed appointment of Charles E. Hughes as chairman of the Conference.

Suddenly the audience thought the Conference interrupted when Interpreter Armse translated Balfour's address for the benefit of the French delegates.

Whenever a speech was delivered or a question asked, it had to be repeated in English and French. Fortunately there was no need of translating the speeches of President Harding or Secretary Hughes as these in printed form were distributed among the delegates.

Secretary Hughes' proposals for the reduction of Navies simply dazed both the delegates and the spectators. To tell the truth, I had thought that the first day would be devoted to a discussion of general questions. When Secretary Hughes ended his address, I felt inclined to leave and indulge in speculation in some quiet corridor.

Suddenly members of the American House of Representatives began to call, for Premier Briand. He responded to the demand but did not speak a single word regarding the proposals advanced by Hughes. His speech was nothing more than an abstract glorification of peace.

Then came the cry from the galleries: "Let the Japanese delegates speak."

The spokesman of the Japanese delegation then arose. He spoke in English and delivering a speech devoted to high idealism, also studiously avoided reference to the plan proposed by Secretary Hughes. The Italian, Chinese, Belgian, Dutch and Portuguese delegates then spoke and were warmly applauded although not one said a word about the proposals of Hughes.

At first sight it would seem that Secretary Hughes launched his drastic proposals to facilitate business of the Conference by bringing pressure to bear on the Navy question and Japan. But I hold a different view.

Proposals such as brought out by Hughes cannot be adopted unless all questions relating thereto are settled first. Nevertheless, it is a fact that he has changed the gas, so to speak, of general questions into the solid earth of practical and real questions. In a word, the United States in making the proposals, said:

"Please accept them. If you do not wish to accept them, state your reasons.

"Japan must accept them. If she does not, she must make some answer to the American proposals."

Here, I find it necessary to touch on the causes that necessitate expansion of armaments. If there is a warship afloat, there must be a reason for its being there. Must be some secret object, some possible enemy.

I think the conference will consider the question of what extent the countries concerned in navy reduction fear secret enemies.

Thanksgiving Proclamation Of President Harding

THAT season has come when, alike in the pursuance of a devout people's time honored custom, and in further recognition of favoring national fortunes, it is proper that the President should summon the Nation to a day of devotion and of thanksgiving for the blessings bestowed and to give therewith a prayer of guidance in the modes of life that may deserve continuance of Divine Favor. Foremost among these blessings is the return of peace and the approach to normal ways again.

The year has brought us again into relations of amity with all nations after a long period of struggle and turbulence; in thankfulness therefore we may well unite in the hope that Providence will vouchsafe approval to the things we have done, the aims which have guided us and the aspirations which have inspired us. We shall be prospered as we shall deserve prosperity, seeking not alone for the material things but for those of the spirit, as well, earnestly trying to help others, asking before all else the privilege of service as we render thanks anew for exaltation which has come to us.

We may fittingly petition that moderation and wisdom shall be granted to rest upon all who are in authority in the tasks they must discharge, that their hands will be steadied, and their purposes strengthened in answer to our prayers. Ours has been a favored nation in the bounty which God has bestowed upon it. The great trial of humanity, though indeed we bore our hearts as well as we were able, left us comparatively little scarred. It is for us to recognise that we have been thus favored and when we gather to our altars to offer up thanks, we will do well to pledge in humility and in all sincerity our purpose to prove deserving.

We have been raised up and preserved in national power and consequence as a part of a plan whose wisdom we cannot question. Thus believing we can do no less than hold our nation the willing instrument of the Providence which has so wonderfully favored us,

Opportunity for a very great service awaits us if we shall prove equal to it. Let our prayers be raised for direction in the right paths under God. Our responsibility is great to our own first, to all men afterwards and to all mankind in God's own justice.

Now, therefore, I, Warren G. Harding, President of the United States of America, hereby designate Thursday, the 24th Day of November, to be observed by the people as a day of Thanksgiving devotion and prayer, urging that at their hearthsides and their altars they will give thanks for all that has been rendered unto them and will pray continuance of the Divine Fortune which has been showered so generously upon this Nation.

In witness whereof, I have hereunto set my hand and caused the Seal of the United States to be affixed. Done at the City of Washington, this 31st day of October, in the year of Our Lord, One thousand nine hundred and Twenty-one, and of the Independence of the United States, the One Hundred and Forty-sixth.

By the President, Warren G. Harding,
(Seal)

CHARLES E. HUGHES,
Secretary of State.

Big Automobile Show Now Ready For Exhibits

Except for the finishing touches and the installation of exhibits, the Shanghai antomobile show is ready for the opening Saturday. The last of the decorative railings were put up yesterday, the lights are all in place, the rubberoid floor covering is down, telephones are in the various booths, and the ball room floor is rapidly nearing a Carlton smoothness. Beginning today, the exhibitors will start to put in their displays, and from the looks of things now the whole show will be complete and finished when the doors open Saturday.

The official opening, which will be attended by more than a hundred foreign and Chinese officals, will take place at noon Saturday, with Mme. Wilden, wife of the French Consul General, as the sponsor. After brief ceremonies at the door the guests of the Show Executive committee will pay a visit to all the booths and to the various show attractions, including the big dancing pavilion.

Work is now being concentrated on the dancing pavilion. All last night a big gang of carpenters and bamboo workmen were busy moving the kitchen away from the dancing pavilion. This was done at the request of the French authorities, who feared the ranges would be too close to the pavilion unless the kitchen were removed. Accordingly Chairman White, of the building committee, put his men to work moving it back 25 feet.

CARLTON TO MOVE

The Carlton managers will begin moving to Verdun Gardens today. An immense amount of kitchen and dining room equipment will be taken out from the down town establishment, as all signs point to an immense crowd for dinner on the opening night of the show.

7 POWERS AGREE TO NEW CHARTER; CHINA TO GET SQUARE DEAL

America Proposes Four General Principles To Govern Procedure Of Conference On All Far Eastern Questions—Delegations Wonder How Program Outlined By Root Can Be Effected

FOR INDEPENDENCE AND INTEGRITY

British Announce Concrete Plan For International Cooperation—America Play Waiting Game In The Asiatic Tangle—China Has Done Her Part

BY FREDERICK WILLIAM WILE
(Trans-Pacific Public Ledger—China Press Exclusive Service)

Washington, Nov. 22.—Steps for "a new Charter" for China were taken with great unanimity this afternoon on the initiative of Mr. Elihu Root, former Secretary of State, a member of the American Delegation.

The offer consists in a set of four general principles governing the procedure of the Conference in conferring on Far Eastern questions.

The resolutions Mr. Root submitted provide for the following:

Recognition of the fundamental sovereignty and independence of China.

China shall be given the fullest possible opportunity to develop and maintain a stable government.

Equal opportunity shall be given all nations in the Chinese market.

Self denial shall be exercised on the part of all powers as far as taking advantage of the conditions at present prevailing in China is concerned.

Everyone admits the broad generalisation of these principles, but Conference leaders are confident that the basis has been laid for the most important chapter in the program of China's prosperity.

Mr. Root's scheme harmonises closely with the program submitted by China last week and curiosity now is universal as to how America purposes to make the Root program effective. Root evidently has been selected as the American delegate who will handle the American end of the Far Eastern question. He has been in frequent conference with Dr. Wellington Koo and Alfred Sze.

For the moment, the situation is too platonic generally to admit of prophecies but seven nations went on record today in favor of this new square deal for China.

They were Japan, Great Britain, France, Italy, Belgium, Portugal and the Netherlands. The chiefs of the delegations stood up one after another in the meeting of the Far Eastern Conference committee and vowed allegiance to the principle of the independence and integrity of China.

These statements were evoked by the proposals that China submitted earlier in the week. Only the representatives of China and the United States did not participate and this significant circumstance confirms the now deep rooted impression that it was China's phraseology, but America's policy which the conference is considering as the basis for the establishment of the New Order in China.

The British Delegation today issued a statement that plainly signified some concrete form of international co-operation in China will be offered the Conference. The statement said:

"Announcement was made in the House of Commons this week by Under-secretary for Foreign Affairs, Mr. Harmsworth that the 'spheres of interest' policy had been superseded by a policy of international co-operation."

China's action in taking the initiative by originating the discussion on Far Eastern Affairs again caught the prophets off their guard. The general expectation was that the United States would repeat the tactics Secretary Hughes displayed when he submitted his concrete program for limitation of armaments. It is more and more evident that America intends to play a waiting game regarding Asiatic problems. She naturally has definite and well known views regarding China, but it is deemed better strategy to await developments in other quarters.

Meantime it is considered that China has done all that is necessary to pave the way for eventual decisions regarding her position. China's proposals are admittedly altogether of a general character but later concrete applications to special cases will take place.

While in virtually every conference quarter, there is complete readiness to agree broadly with all principles laid down in behalf of Chinese independence, there is corresponding unwillingness to believe that China will be able to make good the high purposes she proclaims. To an overwhelming degree, the Conference looks upon China as a broken reed.

In the interests of the Republic itself as well as those of foreign powers, everybody wants to see a strong China emerge, but until they are convinced that ways and means have been devised insuring in themselves a self-sustaining China, it would seem altogether unlikely that the Conference will give Peking a blank cheque.

SEEK TRIPLE ALLIANCE

(Trans-Pacific Public Ledger—China Press Exclusive Service)

Washington, Nov. 22.—It is authoritatively reported that the United States will oppose a reduction of the naval base facilities on her own coasts although reducing the general naval establishment. It is not concealed now that Britain will insist on the tripartite alliance as a condition of abandoning the Japanese alliance.

ARE BRITISH SPLIT?

(Trans-Pacific Public Ledger—China Press Exclusive Service)

Washington, Nov. 22.—Stories are persistent that there has been a rift within the British delegation on account of the opposition of Admiralty experts to an absolute naval holiday, preferring a revised replacement program whereby Britain may replace her present vessels gradually, for instance at the rate of one annual-

BOMB OUTRAGES KILL WORKERS IN BELFAST STREETS

(Reuter's Service)

London, Nov. 22.—The Belfast riots are becoming worse. A bomb was thrown today at a tram-car crowded with shipyard workmen, which had apparently been purposely derailed, killing three persons and wounding 16. Another bomb was hurled at a crowd of men returning from work on foot, 12 persons being killed.

LOOSE MACHINEGUNS

London, Nov. 22.—There was rioting in Belfast during the week-end. The troops were compelled to fire and the police used machineguns. There were a few casualties. The trouble was renewed last night and three persons were killed and eight wounded. A shop was looted and burned.

TWO ARE KILLED

London, Nov. 22.—Two persons are dead as a result of renewed sniping of shipyard workers at Belfast today.

EX-SOLDIERS TO GET FARMS

(Reuter's Service)

Melbourne, Nov. 22.—In the House of Representatives today Mr. Hughes stated that in view of the approaching completion of the work of repatriating Germans, the Federal Government had decided to sell the appropriated plantation in the former German New Guinea, preference being given to the offers of ex-soldiers.

ly, thus preventing a complete demoralisation of the shipyards.

NAMIE HANIHARA

Tokio, Nov. 22.—At today's Cabinet meeting, it was decided to appoint Mr. Hanihara, Vice-Minister for Foreign Affairs, as plenipotentiary of the Japanese Government at the Washington Conference.

BRITISH GIVE O. K.

(Special To The China Press)

Washington, Nov. 22.—Great Britain has endorsed without reservation the "6-5-3" ratio proposed in the American plan for naval reductions, it was learned tonight on highest authority.

While accepting the plan as a whole only in principle because of their desire to put forward proposed modifications of the submarine and replacement features, the British delegation is said to have approved the relative capital ships strength for Great Britain, the United States and Japan without equivocations.

HOPE FOR ACCORD

(Special To The China Press)

Washington, Nov. 22.—As a result of the conference yesterday between Secretary of State Hughes, Mr. Balfour and Baron Kato, when naval questions were canvassed in the light of the Japanese reservations, the greatest confidence is expressed in Japanese circles tonight that accord will eventually be reached.

The position set forth tonight by Japan is that of a determination to attain a favorable agreement.

Japanese experts declare emphatically that tonnage was the logical basis of rational displacements. They pointed out that battle cruisers might possess great speed, but would be inferior to dreadnoughts and in naval engagements would be at a disadvantage.

Therefore, they argue, that British and Japanese capital ships included battle cruisers was not an indication of superiority and should not be so counted.

They insisted that Japan has no positive program concerning the general question of China but that as the various points are presented Japan will explain her position on each point.

FRENCH PRESS REPORTS

(French Wireless through Reuter)

Paris, Nov. 22.—The special correspondents of the French Newspapers at Washington are unanimous in emphasising the remarkable applause which greeted that part of M. Briand's speech, which described the situation in Europe and pointed out the part which had already been played by the French forces since the end of the war to maintain peace, notably in the case of the Bolshevik attack on Poland.

Since the inaugural speech of Mr. Hughes, they declare, no public speech at the Conference was listened to with more attention and no plea has been made so modest and at the same time so vigorous, avoiding the appearance of overemphasis but yet of convincing clearness.

The same correspondents also emphasise the emotion with which Mr. Balfour declared his full and unreserved approbation of the French attitude.

ARE FOR ALLIANCE

(Reuter's Service)

London, Nov. 22.—Commenting on Lord Northcliffe's speech at Peking, the Morning Post recalls Japan's loyalty in the War by which she probably saved the Entente and certainly prevented a terrible conflagration in the Far East.

The journal also recalls That Mr. Hughes, the Australian Premier, declared in favor of the renewal of the Anglo-Japanese Alliance and adds that the past and the future alike have convinced the British nation that, though Japan has her jingoes, the interests of the two countries and the cause of civilisation and the peace of the world demand that the two island Empires shall remain in very close solidarity and friendship.

Referring to the Pacific the Morning Post says that combination alone can prevent disaster and the nucleus of that combination is the Alliance.

'MUST STAND BY YOU'

(Reuter's special Service)

Washington, Nov. 22.—A British spokesman declares that the British attitude with regard to the Anglo-Japanese Alliance remains as recently expressed by Mr. Lloyd George when he said that it would not be proper to say to Japan; "You stood by us during the war but we don't need you now, so goodbye!"

The spokesman emphasised that Mr. Lloyd George had also declared that this did not mean that Britain would continue the treaty against the interests of any nation and certainly not against those of the United States.

PROTEST TO ADMIRAL KATO

(Trans-Pacific Public Ledger—China Press Exclusive Service)

Washington, Nov. 22.—A group of Japanese, including practically all of the Japanese newspaper correspondents in Washington visited Admiral Kato today to protest against his address before the conference on Nov. 15 and also against the reservations to the Hughes' proposals for naval disarmament which he announced the following day.

Spokesmen for the group declared that they did not want to embarass the delegation in its negotiations at the conference or interfere with the business of the Government, but they expressed the feeling that Kato's course was unwise because it was putting the Japanese people in a false position by obscuring the fact that all Japanese want a reduction in armaments. Kato's attitude, they said, makes foreigners think that Japan is hedging.

Admiral Kato, in replying, asked the confidence of the party in his judgment and said that he regarded the reservations as reasonable and did not doubt that they would be so regarded by other nations also.

The majority of the correspondents left satisfied with the Admiral's explanation, thus ending another sensational smashing of precedent.

Admiral Kato declared that the reservations to the Hughes' proposals are believed necessary "because her geographical position is such that Japan deems it only fair at the present time that other interested countries agree that she maintain a proportion in general tonnage slightly greater than sixty percent and in a type of vessel strictly of a defensive character she might desire even to approximate that of other navies."

BANDIT GARDNER IN TOILS AGAIN

(Special To The China Press)

Phoenix, Arizona, Nov. 22.—Roy Gardner, the famous California mail bandit, who made a sensational escape from the U. S. federal prison on McNeils Island several weeks ago, was captured here today and lodged in the county jail.

Gardner told the Phoenix officers who arrested him that he would make another attempt to escape if he got the chance. He said that he had been in Phoenix for three weeks, and was planning to cross the border into Mexico at the first opportunity. He would not give the names of friends who had aided him in making his way to the south.

The arrest of Gardner marks the close of the most sensational manhunt in the history of the Pacific Coast. Gardner first attracted national attention when he held up and robbed the United States mails on a Southern Pacific train in San Diego county, California, of about $300,000.

He was sentenced to serve a term in the federal prison at McNeils Island and made a sensational escape from his guards on a train when nearing the Oregon boundary line. Together with a fellow prisoner named Pyron the convicts bound their guards and escaped in to the dense underbrush. Pyron gave himself up to the authorities several days after the escape but Gardner made his way to Chehalis, Wash., where he was captured about ten days after his escape.

His escape later from his federal prison was conceded to be one of the most daring acts in criminal records on the Pacific Coast. At the close of a ball game, he scaled the wall of the jail under fire, reached the safety of a remote portion of the island and later swam to the mainland.

THE FIFTH WISE MAN

"I'll wait a while before buying my life insurance," said the first wise man. He had to pay 15 per cent more because the cost had increased.

"Next year will be just as good," said the second wise man. He died six months later.

"I'm in no hurry—I can get insurance any time," said the third wise man. He discovered his error later, when the doctor told him he was uninsurable.

"I'll have more money for insurance in a couple of years," said the fourth wise man. But a reckless chauffeur ran over him, and the day when he can buy insurance has passed.

Now there was a FIFTH man and he bought his Life Insurance from the Asia Life Insurance Company when he had the chance. He isn't worrying any. Neither is his family.

Taking Of Testimony Ends In Suit Of Ezra Brothers

Dispute Of Ownership Of Property Taken Under Advisement In British Supreme Court

Taking of testimony in the British Supreme Court before Judge Skinner Turner of the suit of Ellis Ezra against his brother, Isaac Ezra for return of certain properties was concluded yesterday and following the summing up of the case by the opposing counsel it was taken under advisement by the Court.

The cross-examination of the defendant, begun yesterday, was resumed in the morning by Counsel Harris for the plaintiff. He started the session by questions on the option agreement of December 13, which has figured prominently in the suit.

Issac Ezra testified that he said he would agree to the option for repurchase of the properties in dispute but insisted that he wanted a price equivalent to his cost plus twenty percent, which he "considered" as profit.

Plaintiff agreed to pay him Taels 600 at certain periods on the option and if any payment lapsed, the Taels 600 paid subsequently would apply as rent.

Witness said the agreement called for payment of Taels 31,000 plus the expenses incurred in obtaining the property and insisted that a definite agreement was reached.

"The exact words were, 'my costs,'" defendent said, adding that "costs" included legal and other expenses.

Witness, in answer to questions, said that if Ellis Ezra had paid the Taels 600 up to October last and desired a retransfer of the property, he would be obliged to pay the Taels 31,000 plus the costs.

WITNESS QUESTIONED

What would be shown on the account, asked counsel and witness answered Taels 31,000 and the other payments I made: Taels 1,000 paid to Mr. Hansen the solicitor, Taels 500 for other expenses, a few hundred Taels here and few hundred taels there.

The Taels 6,200 would be interest? Yes.

He would have paid you eight instalments of Taels 600 monthly. That taels 4,800 would be deducted from the purchase price? Yes.

So he has to pay you Taels 33,000 if he had to take the option? I suppose so.

You had a loss, you told us, of Taels 8,940? Yes.

Did you tell us that the income from the property was Taels 700 monthly? Yes.

So you lost Taels 5,600? Yes.

You are out of pocket then? No.

The agreement was that Ellis Ezra had to pay all your loss? Sure.

Then you would also expect him to pay you Taels 5,000 that you spent on improvement? If the option was taken up.

You said that in March Ellis did not take part in the discussion concerning the sale of the property? No.

Supposing now he had paid you the Taels 600, would he have to pay you the Taels 5,000? If the option was taken up in March no money would have been paid for the building improvements.

You had arranged for the improvements in March and you said you made no arrangements with Ellis for the improvements? Yes.

You said that if the option was taken up the rubber shares would be returned to Ellis? I took them as rent.

Why should you return them if the option is taken? Because then no rent would be required.

It was a right term of the option that the loss suffered should be paid by Ellis? Why not, it was undestood that I was to have my exact costs. I should have no loss. You can not alter facts.

Perhaps you have altered facts, and not I, retored Mr. Harris and asked—Why was no mention of the option agreement made in your letter of December 13? A Witness answered—A special agreement was to be made.

ON THE AGREEMENT

Why did you not say in the agreement that it is understood that Ellis could repurchase the properties at cost plus twenty percent? Edward Ezra said that we brothers, whatever business we did, had to put it in writing.

Why did you not mention it, in fairness to Ellis? Why did you not, in fairness to him, put it in that Ellis would have the right to repurchase the property at cost plus twenty percent? Answer—I said to myself 'we will make this agreement.' I wanted to make two agreements, one for the sale and the other for the repurchase. I was going to do it immediately. Every night I went to my house I drafted out notes.

You can give no reason why it was not prepared? I had to figure out what it was.

You speak of "cost." There was a definite agreement about that, you say. Any definite agreement had to be put in writing?—I had to find out my cost. This is what I was going to do. The Great Western Road property cost so much and so on with the other properties. I had to find out what other expenses were to be.

How could you make out an agreement on that basis when you would not know what rents would increase to? How could you say what it would be in December? Answer—The point is that I knew I could get $610.

Is that the only reason why you did not make the option agreement? Yes.

You tell us that from Dec. 31 on, you considered that Ellis lost his option? In my mind I thought he broke the terms. I was not going to be too hard on him.

You considered that he lost his option from December 31? I told you yesterday that I did not bind him down. I did not tell him that if he did not pay on Dec. 31 that the option was broken. He actually did break the terms and lost the option. He had broken the terms before and I did not want to be hard on him. Back in April I was willing to take the money from him.

Might I put it to you that in your mind from December 31 onwards you had a right to sell the property without consulting Ellis? I asked his opinion in a way, but I was not going to press him.

Did you consider you had a right to sell the property without consulting Ellis from December 31? Yes.

You also tell us that during six months he could not take up this option? During March he surely could not do it.

He actually paid you the Taels 3,000 in cash? I guaranteed him to Judah for Taels 5,000.

He also gave you back a promissory note for Taels 1,000? Yes.

And he also mortgaged his car for Taels 1,000? Yes.

He therefore actually paid you the Taels 3,000? Yes.

You still say that he could not pay you the Taels 600? I am sure.

You tell us also that on Dec. 13 he said to you, "let me have Taels 1,000." Why did you put so much stress on your mind on Dec. 14, knowing that he had to pay it on Dec. 31? Why make such a song for Taels 1,600? Answer—He had to pay that and all the arrears in rent.

CHARGES BREACH

Why when he did not pay did you not draw it to his attention as a breach of the agreement? He had to pay.

You tell us that on Dec. 14 he told you that you are responsible for the non-payment to The China Mutual. I put it to you that he did not say that? Answer—He did.

The point is whether you were then responsible? The mortgages were not transferred then.

Ellis Ezra was still responsible to the mortgages? Yes. If he did not get this money they would hold it against the property.

In further cross-examination, defendant admitted that he made out the plans that Mr. Goldman had put into court. He had no interview with Goldman after the second time.

Why did you go to see Ellis on April 8 and tell him that you had an offer for Taels 100,000? I wanted to ask him whether it was convenient for him to bring some Chinese to see the property. He told me Taels 100,000 was absurd. He said "You can sell it for Taels 130,000. It is worth it and I can get it."

Did he object to your selling it for Taels 100,000. He could not object. He did not object. He recommended me not to bring the Chinese.

He did not claim any interest in the property except that you could not sell? No.

Why did you the next day write that letter with the words: "buck up or else I will sell?" Answer—I just wanted to show that if he did not come with the option payment I would sell.

You were still relying on him to make efforts to sell the property for Taels 130,000. Then what was the necessity for bucking up? Was it buck up and pay Taels 600? Yes.

Then the option was still open? In my mind.

He was on the point of losing the option. Then why did he not tell you to sell it for Taels 100,000? He did not want me to sell a house in which he was living.

QUESTION OF SALE

Were you relying upon him getting you a buyer for Taels 130,000? He said he could. I believed it for the moment.

The defendant further stated that he got into touch with Mr. Moorehead although Mr. S. Levy, who phoned him and stated that Mr. Moorehead wanted to buy the property.

Did you tell him that on May 17 you got a letter from Ellis not to sell? I looked upon these letters with disdain. I disregarded the letters.

Do you remember the day on which you sold the property? Was it a Saturday? I think it was a Saturday morning.

Did you go to the land office that morning and ask for a special appointment for Monday to transfer the property? Why did you do that when four days is required? Answer—I knew Ellis was threatening me with letters.

Did he issue a writ and an injunction on Monday? Yes. I wanted to transfer the property as quickly as I could as Ellis was tantalising me with a court case.

On May 3, according to your evidence, Ellis came to you and said: "I can give you Taels 2,000 to Taels 3,000. Will you not sell the property?" That was a totally different attitude to what he took on April 8? Answer—He did not object on April 8.

You heard your sister say in the witness box that you repeatedly said that you lost the money to Ellis? That is not true.

You also heard her say to the Court that you told her that you hoped Ellis would get Tls. 120,000? That also is untrue.

You also heard her say that she rang up and asked you to see that after the sale she was paid the loan she made? I said if there was any surplus I would tell Ellis. There was no question of the sale of the property.

And her evidence relating to the property is untrue? Yes. She said: "I heard you are selling the Mohawk Road property." She is the twin sister of Ellis. She did not like my selling the property.

That is the reason that you give for her coming to Court and swearing on oath what you consider is a tissue of lies? She is a twin sister of Ellis. I suppose they have discussed it often. I was very surprised and could not believe my ears. I only heard it whispered that she was coming to Court to say something.

Mr. Ward, examining the defendant further, asked:

You told my friend several times that when you were discussing on December 13 you mentioned costs. At that time you did not know what loss there would be on the property? No.

You did not know at that time there were further arrears of interest? No.

At that time you had no idea of altering the Great Western Road property? No.

You have told us that he made it clear to you that if Tls. 600 was not paid, the option lapsed? In one payment.

RELATIONS STRAINED

In reply to further questions, the defendant said that the Kungyiks were mortgaged with the Rue Massenet property. He had sold the shares on April 18.

What is your brother Ellis' financial position today? He has no money.

His Lordship: What was the interest on the Rue Massenet property? Eight percent.

His Lordship: When do you say that relations between you and Ellis were really strained? I think to a certain extent after my letter of April 9.

When do you say that they began to be strained? He must have heard that I was negotiating to sell the Mohawk Road property and the trouble commenced in April.

Did Mr. Moorehead tell you that he made an offer to Ellis shortly before he came to see you? I heard a rumor that Mr. Moorehead had made an offer.

Did you ask Mr. Moorehead whether he offered Tls. 100,000? No. He never mentioned to me that he made an offer to Ellis.

I ask you this question because he writes to Ellis on April 26 making a firm offer to Ellis for his residence. On May 20 there is a contract made between you and Moorehead for the sale of property? Answer—I told him before the sale that I was the owner.

How long did your negotiations with Mr. Moorehead last? Two weeks.

In that case negotiations with you began one week after his offer to Ellis? I suppose so.

Is it correct to say that the alterations you made to the Great Western Road property were merely the result of the alterations to one house which was done by one tenant? In a certain way.

In further examination by His Lordship, defendant said that the alterations to the property were started in April and completed in August.

That being the case why did you in this slip of paper describe the Great Western Road property as consisting of shops and hongs, when they were foreign residences? I first altered twenty shops and actually there were still shops.

Why did you not include foreign residences? If "foreign residences" was mentioned some people would not buy the property as foreign residences are vacant sometimes.

As a matter of fact your community does hang together in a considerable way? They are famous for that? Yes, always.

FOR RUN-DOWN PEOPLE.

A Helpful Suggestion.

The expression "run-down" comes from the feeble action of an unwound clock, and the comparison is a good one. Applied to health it means a condition in which all the bodily functions are enfeebled. Appetite fails, the digestion is impaired, the nerves are impoverished, the complexion becomes pale, there is no animation, but rather worry and mental depression. Fatigue is a constant symptom.

No particular organ being affected, you must look for relief to the blood, as it circulates everywhere. Improvement in the blood is quickly felt throughout the entire system, and Dr. Williams' pink pills are the best blood builders. As your blood becomes rich and red, the various organs regain their tone and the body recovers its vigour. If you have any or all of the above symptoms, try the tonic treatment with Dr. Williams' pink pills for pale people.

If you are not fit Dr. Williams' pink pills will help you to health. For men and women too. Get a supply now from any dealer; or direct from Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai; price $1.50 the bottle or $8 for six bottles. Post free.

MRS. AYSCOUGH TELLS OF CHINA'S ANCIENT POETS

The poetry of old Asia has all the elements of a finely developed literature, according to Mrs. F. Ayscough, who lectured yesterday evening before the Royal Asiatice Society on "New Translations of Ancient Chinese Poetry." According ding to Mrs. Ayscough the Chinese minstrels of the old days not only had the ability to record history and the power of description but possessed as well a system of word symbols that gave their meanings a miniature but graphic picture of the subject.

Mrs. Ayscough, with her readings of the translations of the poems, gave proof that China has a background of exquisite beauty in the legends and writings of her authors.

One of the most powerful of the readings given yesterday was a poetic record of the life of one of the less favored wives in the household of an old time chief. The lady in question had been presented to the chief as a gift from a subject. The author described the arrival at the palace and told how the high pride of the woman prevented a very necessary formality—the painting of her portrait. It seems that as a result, the lord of the mansion forgot the new arrival in the press of his other duties and later traded her to a prince from the South, only to discover that he had lost the most beautiful of all his wives. The story has the usual happy ending and as a sort of crowning feature recited the luxuriant growth of green grass growing eternally on the grave of the dead queen.

BIGAMY CHARGE AGAINST CHINESE IN MIXED COURT

Maybe it'll be as much a surprise to you as it was to a lot of the spectators in the Mixed Court yesterday when Ysu Ping-shing, son of the proprietor of the Dong Chong Bicycle shop, was called to answer to a charge of bigamy.

The case was conceded as unusual even by the attorneys and others familiar with the Chinese Provisional Criminal Code and in applying for bail for his client Mr. K. E. Newman expressed a doubt as to whether, until the compiler of the code took it upon himself to insert the provision, such a charge was ever heard in China. The court would understand, he said, the great difficulty which they would be in proving such a charge in view of the customs governing marriages in this country.

The complaint was made by the mother of Tsu's first wife, who is represented in court by Mr. Alexander Ting.

Tsu was ordered to give security of Tls. 500 and the case was remanded.

Am'n School And City XI Play Holiday Match Today

Thanksgiving Football Game Scheduled For 10:30 a.m. On Rugby Field

The great American national holiday, Thanksgiving will be celebrated in the field this morning by the customary American football game, which this year will be staged between the Shanghai American School and the light eleven of the Shanghai Football Club.

The game will be played rain or shine. With a sprinkling of rain later last night forecasting a wet field for today, and the weather man predicting cloudy though improving weather the decision was made that the big benefit game should be played regardless.

The match will be called promptly at 10:30 o'clock. It will be played on the Shanghai Rugby Football Club field in front of the Cricket Clubhouse, which by the way is the best field in Shanghai.

As near as could be ascertained last night the two teams will start the game with the following lineups:

Shanghai: Burgess RE, Stovall RT, Whiteman RG, Dunn C, Whitcomb LG, Gaynor LT, Bud Hewitt, LE, Neal QB, Hick Hewitt RHB, Smith FB, Mahony LHB.

American School: Parker RE, Kees RT, Lawton RG, Henry Water C, Fisher LG, McGinnis LT, McDaniels LE, Brewster QB, Squires RHB, Herbert Waters FB, Chase LHB.

The School has changed its lineup for the big game with Shanghai from the formation it put against the city team in the practice match a week or more ago. Squires has been moved from his end position to half back; Brewster, former half back is to run the eleven from quarter while Parker, the quarter in the practice game is to fill in at right end.

Shanghai also is presenting a new lineup. Several new and lighter men are listed for the opening of the game, including Gaynor, Whiteman and Burgess. Stovall has been moved from the guard position to tackle, and the backfield will be made up of lightweights, Hewitt, Smith and Mahony. Capt. Wilhoit, Mal Maloney, Neprud, and other heavyweights will not participate in the game.

The game this morning will have all of the features of a big Varsity match back home, with the American school turning out en masse, with its cheering sections, its banners and its songs. The Shanghai eleven will draw its usual following, and the morning of football will go far toward giv-

French Classify Football Now As Military Training

Paris, Oct. 10.—Football matches in France henceforth will not come under the heading of entertainments but within the category of "physical and military education," French courts have ruled. Hitherto gate receipts of football matches have been uniformly subjected to the so-called poor-tax on entertainments. A test case, however, has just been made by the manager of the Toulouse Club who refused to turn in the usual ten percent to the state and the court has decided that football was immune from the tax.

CASTORIA

for Infants and Children.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs will produce sleep, and a few drops too many will produce the sleep from which there is no waking. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labeling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children unless you or your physician know of what it is composed. Castoria does not contain narcotics.

Physicians Recommend Castoria.

"I have frequently prescribed Castoria for common ailments of children with good results."
W. A. CRANDALL, M. D.,
Buffalo, N. Y.

"I find your Castoria is very beneficial in the treatment of children's ailments."
F. DAVIS, M. D.,
Chicago, Ill.

"As the father of thirteen children I certainly know something about your great medicine and, aside from my own family experience, I have, in my years of practice found Castoria a popular and efficient remedy in almost every home."
WM. J. MCCRANN, M. D.,
Omaha, Neb.

"I object to what are called patent medicines, where the maker alone knows what stuff is put in them, but I know the formula of your Castoria and advise its use in proper cases. I judge it to be a very useful, as well as harmless family medicine."

Sores from Wrist to Elbow
"Completely Healed"

Our portrait is of Mr. John Kidd, of 17, Mill Lane, Kilmarnock, Scotland, who writes:—"My right arm became covered with sores from wrist to elbow and was useless for over two years. I tried different ointments and so-called cures, but they never did me any good. Then I tried your 'Clarke's Blood Mixture,' and the sores soon began to heal up and power began to come back to my arm, so I persevered with the Mixture, and after having four bottles am glad to say my arm is completely healed up and I have now the full use of it." In a further letter over a twelvemonth later Mr. Kidd writes: "I have had no return of my complaint; my arm is still as sound as a bell and never troubles me in the least."

MEASURES TAKEN TO HALT SPREAD OF SMALL POX

In the present epidemic the disease, according to physicians, has appeared in a number of cases in particularly virulent form and every measure is being taken to prevent its spread.

It is reported that three deaths among foreigners have occurred up to the present.

SENT TO CHITA

Seven Millions In Deposits First Day At Far Eastern Bank

Nearly seven million teals were deposited in the new Far Eastern Bank yesterday on its opening day.

The bank which has its main offices in Shanghai, and branches in Tientsin, Canton and Tsingtao, was "at home" during the day, yet before the doors were closed for the day a total deposit entry of Tls. 6,941,105.98 was shown.

The Far Eastern Bank is under Italian registry, with two managing directors, Viscount E. M. Di Villa and Mr. W. S. T. Nien. It has an authorised capital of Lire 50,000,000, and a paid up capital of Lire 12,500,000. It has banking correspondents all over the world, and is prepared for every kind of legitimate banking business.

Yesterday's reception drew many guests of official standing as well as those prominent in Shanghai banking circles. Among them were Italian Consul-General Ferrajolo, General Ho Feng-ling and his staff, Consular officials, Italian naval officials, and various Chinese and foreign bank officials.

The contest which was held by the bank with $100 as the prize to the contestant guessing nearest to the total of deposits on the opening day was won by Captain W. MacKenzie, of the Peking Club, Peking, who guessed Tls. 7,000,000, less than Tls. 59,000 off the actual figure.

TAKE NOTES OR JAIL

(Reuter's Pacific Service)

Peking, Nov. 20.—It is officially confirmed that the $3,000,000 from General Chang Tso-lin has arrived in Peking, and it is stated that General Tsao Kun is sending a further $2,000,000, to restore the position of the banks of Communications and China.

Thus the situation is much easier today and though the runs on the banks may continue tomorrow confidence has been greatly restored by the fact that the notes of these two banks are accepted in the streets for small amounts. The main feature of the run has been the panic of the poor classes and this is passing. In Kalgan and other Northern centers the panic has practically passed.

Twelve business men of Peking, who had refused to accept the notes of the two banks, were arrested and yesterday were escorted through the streets with notices on their backs to the effect that they had declined to accept notes of the Banks of China and Communications. The drastic treatment is said to have had its effect upon waverers.

WEST U. S. IN BLIZZARD

(Special To The China Press)

Portland, Ore. Nov. 22.—A snowstorm, sleet and rain storm following each other without interruption impeded traction service and broke down many miles of telephone and telegraph wires. Fruit and shade trees all over the city were damaged during the storm, many of them losing nearly all their limbs through the heavy weight of the wet snow. At Western, Idaho, the thermometer registered twenty degrees below zero, the coldest weather in the history of the local weather bureau.

Charges Against Choy Dismissed

In a decision given by U. S. Commissioner F. J. Schuhl following a preliminary hearing of charges of embezzlement that were made against William Choy by the firm of Fearon, Daniel and Company, the charges are dismissed.

Mr. Choy was formerly employed by Fearon, Daniel and Company as a salesman and interpreter and it was alleged that he had sought to convert to his own use a certain native check in the sum of Tls. 2,910. According to the verdict given by Commissioner Schuhl sufficient evidence had not been presented to give basis to the charge.

show grounds yesterday, to get a line on the ball room in which he and his musicians will play during show week. He inspected the great shell, or sounding board, that has been erected over the orchestra platform, and expressed the belief that dancers would have no trouble hearing the music that he and his men will make, despite the vastness of the ball room. The sounding board will throw the music directly toward the dancers, the Carlton orchestra leader says.

Manager Ellis, of the Carlton, had a staff of fifty carpenters at work on the dancing pavilion floor all day yesterday, their efforts being augmented by two electric floor polishing machines, one of them so large and powerful that all the current at present available in the show buildings was required to operate it. These machines, which were loaned by the China Import and Export Lumber company, consist of cylinders, wound with sand paper, and driven by an electric motor. Besides giving a smooth surface to the floor they make it absolutely level, and free of ridges. After the sandpaper machines get through the floor will be hand rubbed and then waxed, after which it will satisfy the most fastidious stepper in Shanghai.

REHEARSAL SATURDAY

On Saturday morning Mr. Barron and his musicians will go to the auto show for a test of the ball room's acoustics. Likewise the entire Carlton staff of more than two hundred employes will be taken to the show grounds tomorrow or Saturday morning for a rehearsal. The Carlton managers are anxious to have everything in smooth running order for the big dinner Saturday night, at which they expect to serve one of the largest crowds that ever assembled in a dining room in Shanghai.

The Carlton management announced yesterday that arrangements had been made to have fleets of motor cars at both the Lyceum and Olympic theaters after the performances Saturday night to take visitors to the Auto Show. The cars will be waiting at the doors, so that those who wish to go to the motor show will not be delayed in getting transportation. There will be plenty of time to take in the big doings at the motor show after the theater close.

AUTO SHOW NOTES

The triumphal arch that Mr. White is having built at the junction of Avenue Joffre and Rue Cardinal Mercier is nearly completed, and with its decorations it is sure to be one of the finest attractions at the auto show.

Signs were hung over most of the booths yesterday. Each sign is ten feet by two, and done in white and green.

John I. Thornycroft and Co., Ltd., installed two of their exhibits yesterday, these being a railless tram and a combination gas and electric truck. Both are the last word in this type of vehicles.

Hudford Motors space is enclosed by a railing in which Ford wheels make the base. The effect is very attractive.

The busiest bird in this town just now is Shing Sing Kee, the Chinese contractor who is putting up the buildings and fitments for Mr. White.

The side walls of the dancing pavilion were decorated yesterday in pink and white strips, each thirty inches wide. The main lights in this room are to be red and white, in alternate rows across the arches.

The lighting plant that has been built by Jardine, Matheson and Co., Ltd., will be tested today. The big engines were all ready last night.

At least a thousand coolies were at work at the grounds yesterday, and the racket they made with their Chinese equivalents of "yo heave" as they lifted exhibits into place was deafening.

The first of the lanterns were hung in the ball room last night. During the waltzes, the lanterns only will be illuminated.

The auto show telephone number is West 2700. The switchboard has five trunk lines and forty extensions.

HYLAN BY 400,000

(Special To The China Press)

New York, Nov. 22.—The complete recount in the New York mayoralty election show: Hylan (Democrat) 754,864; Curran (Republican) 336,888; Panken (Socialist) 82,209.

Other returns show that Maryland and Kentucky changed almost completely from Republican to Democratic, the Democrats securing control of both legislatures. The Republicans hold New Jersey.

State Senator E. L. Frankle (Dem.) was elected Governor of Virginia on a program strongly favoring a state soldiers' bonus.

SPEAKIN' 'bout Thanksgivn'—I'm thankful. So are the folks at my house, we don't have to wait till 1971 to get an Honustogawd feed in Shanghai, and we can take our mixed salad without being vaccinated first, and our roast pork w thout a gas-mask. What could be sweeter? If 1971 will offer any better food than I'm serving now, they'll have to discover some new kinds of fish & fowl, beasts, fruits & vegetables, but who can tell? They may be eatin' Forget-me-not stews, and Azalea Pudins then (altho there are some folks now who have had some of the stews they can't forget) but otherwise 18 Quinsan Garden is just 50 years ahead of any place in Shanghai in the Chow line. A beautifully furnished three-room apartment for two or more persons and a single room for one chap are vacant now. Elmont, 18 Quinsan Garden.

And for the purpose of giving effect to the above decision the present procedure whereby sealing orders are issued in respect of distress warrants on the ex parte application of the landlord is temporarily suspended.

The Court further reserves to itself the right to consider any special cases on their merits.

How Thanksgiving Has Changed

BY R. K. M.

BEING thankful was once a state of mind. Now it is a state of pocketbook. It was once very easy to be thankful on Thanksgiving Day. Now they do say it is some trick, and the fellow who accomplishes it to his own satisfaction is quite proud of himself and he never does get over bragging about it.

Not that we are not all thankful, because we are, but it requires much more shimmying around to find things to be thankful for than it did when it was possible to go out and buy a Thanksgiving dinner for ten relatives for $2.50. In the old days a man could be thankful almost by mental deduction. Now he has to call in an efficiency expert, an expect accountant and his banker.

In 1640 Peleg Pollett and his wife regarded the approach of Thanksgiving Day with pleasure, not to say delight, for they had something to be thankful for. The Indians had not been shooting straight and the Governor of the colony had forgotten to put on any new stamp tax on tallow candles.

On the day before the great event Peleg shouldered his blunderbuss, which scattered shot like a garden hose with the sprayer on and weighed 83 pounds, and went out after the turkey. He generally found one about as far from the house as he could carry the gun, which was three or four hundred yards. After taking one shot at the turkey he retired hastily behind a large bush, but not until an arrow had passed through his hat.

In the olden days this was called an arrow escape.

He then carefully placed the butt of his field gun against a large tree, which could not be kicked over and, getting around the other side of the tree, he reached around and pulled the trigger. The shot blew the turkey to atoms and punctured three or four of the Indians, and then Peleg had to wait for another turkey and more Indians. It was usually necessary to shoot eleven Indians to get one turkey.

By nightfall he had captured a nice plump bird, weighing in the neighborhood of 40 pounds, and he reached home entirely exhausted with his hat and clothing full of arrows and his soul full of thanksgiving. The grand feast occurred next day, being interrupted only occasionally by an Indian dropping down the chimney or reaching through the window and making a pass at Peleg with a tomahawk. It was the favorite pastime of Indians in those days to get on the roof and sit on the chimney, thereby confining all the smoke to the dining room, but the settlers soon learned to eat in the dark and still be thankful.

After dinner Peleg and his wife went to church for the rest of the day and the Indians burned his house down, set fire to his maize field and then went and plugged up the chimney of the meeting house. When people got home they started building their homes all over again and usually got them done by the next Thanksgiving Day. Those were the days when people had almost no troubles to speak of.

THE TWO COUPLETS

A young lady at a party lost her glove. The finder was an old bachelor named Page, and he returned it to her with this note:—

"If from your glove you take the letter 'g',
That glove is love, and that I have for thee."

To this the young lady, having no heart, as we say at bridge, replied:—

"If from your name you take the letter 'p',
Then Page is age, and that won't do for me."

BITS FROM BOOKS.

"The Duke of Devonshire had seen in the paper that somebody had given a certain bride a set of napkin rings. He worried about the meaning of this until he came across a knowledgeable man, who, he thought, could explain what napkin-rings were. The explanation was given that in a certain class of society people did not use clean napkins for every meal, and that therefore each member of the family kept a distinctive ring. The Duke remained silent for a few minutes. Then he suddenly exclaimed: 'Good God' "—

THE BOER WON

An American traveller entered into conversation with a Boer farmer during a long and tiresome train journey.

As is the way of some Americans, he started boasting of the glories of the U. S. A.

"Believe me," he said, "we had a cabbage so large over there that its shadows darkened Broadway. Suddenly it faded and decayed, and in time it was found that the rabbits in Australia had eaten away the roots."

"Some cabbage!" said the Boer. "But when I was on the farm in South Africa we had an ostrich that ate an ink-pad and numbering-machine, and for the next three years every egg it laid was dated and numbered."

WHY CHARLIE IS POPULAR

Among the discoveries of Dr. Kimmins is the reason why Charlie Chaplin is so popular. "It is not only due to his continual movement and change of action," he says, "but because he breaks all the social conventions, and is always doing the things that children are forbidden to do."

But children do not only laugh at people who perform forbidden acts or who fall downstairs. They are tickled by quaint ideas.

One of their favorite stories, according to a test carried out by Dr. Kimmins, is the story of a lady knitting a jumper. Her ball of wool fell down, and the cat swallowed it. The cat soon afterwards had kittens, and each kitten was born with a jumper on.

One of Dr. Kimmins' best anecdotes did not deal with children. An American, famous for his after-dinner speeches, was asked how he knew when to stop.

"Look at your audience," he answered, "and if you find you have not struck oil, cease boring."

Lenin Is Aided By Famine

(Rosta News Agency)

Moscow, Oct. 25.—The Nation Belge in Brussels has published an interview with Kerensky:

"I have some excellent friends who consider the collapse of the Soviet Government imminent. These friends are mostly foreigners. We Russians do not expect a collapse, first because we consider it improbable and secondly we consider it undesirable.

"The famine will not overthrow the Soviet power; it will fortify it. For two years Lenin has been wanting something which he considers indispensable for the consolidation of his power, and that is relations with the outer world. He has left no stone unturned in order to realise this.

"He has promised everything and I believe that he was ready to keep his promises. However, all efforts have been in vain. The industrial lords of western Europe demanded guarantees which Lenin could not give. So they refrained. The famine and the subsequent international relief action will naturally lead to the necessity of negotiations between the Soviet and the States peaceful intervening in Russia.

"When governments negotiate, industrial interests are not far in the rear and Lenin's desires will soon be gratified. Thus, we can say that the famine has turned out in favor of the "Muscovites" and it is useless to hope for any catastrophe from this source.

"I have also said that the collapse was undesirable, because it destructive forces are existing in Russia, they are much too divided among themselves to ever become a constructive force. The forces existing outside of Russia are in a still worse plight. We must come to the strange and desperate conclusion that the Soviet Government is the only government capable at the present moment of governing Soviet Russia."

AMERICANS SAVE INFANTS

Moscow. (by mail), Oct. 25.—Mr. Baldwin and the Director of the Reval section of the American Relief Work, immediately after their arrival at Petrograd, called on the representatives of the Commissariat of Trade. They discussed the unloading of the food ships in Petrograd and the forwarding of the food to the famine districts.

Besides the relief work in the Volga district, the Americans intend to organise mixed medical and feeding stations for the children in Petrograd. They have already secured the services of a number of prominent Petrograd infant doctors with Dr. Kissim at the head. The children to be cared for are being divided into infants, children of school age, and children under school age who live with their parents.

Messrs. Carrol and Burland, members of the American Relief Committee, have made the following statement:

"We require monthly from 16 to 20 trains of 40 trucks full of food for our relief work. The delivery at Riga is quick enough. Messrs. Gregg, Schafroth and Dr. Calder have gone to Samara, Saratov and Kasan to study the report on the local situation. According to reports which have come in, help is most urgently required in Samara.

"We have had reports from Mr. Sanders that he has gone from Bukharest to Novi Rosisk by way of Constantinople and intends to set up a second base of the American Relief Work on the Black Sea.

"The Marien Canal has been investigated as to the possibility of speedy transport to Ribinsk and other places on the Volga. Local committees are being organised by the American Relief Work, and feeding centers are to be set up. Numerous volunteer workers have already visited the Moscow office. Colonel Haskel who has arrived in Russia finds the work going on satisfactorily."

Dealing with the American attitude towards the European organisations, Mr. Carrol emphasised the independence of the American Relief Work. Nevertheless, he declared, it was prepared to cooperate with every organisation pursuing the same object, namely, to help the hungry children and the sick without any connection of a political or commercial nature. In conclusion he expressed his pleasure over the great interest shown by the Russian press and the public in the American relief work.

Chita Obdurate For Evacuation

(China Press Correspondence)

Peking, Nov. 20.—Negotiations at Dairen between Japan and Chita were officially resumed on November 14, but according to reports received here an atmosphere of suspicion prevails at the conference and the representatives of both countries credit the opposing delegates with ulterior motives behind the deliberations.

The Chita Minister of War, who has now succeeded to the chairmanship of that delegation, advanced the views of his government but failed to bring forth the counter proposals which the Japanese expected. And a new question was added to these being discussed when he brought up the matter of the admittance of Moscow delegates to the conference in a special commissions.

The two questions which have been under consideration throughout the conference were discussed again, namely, the reaching of a trade agreement between Chita and Japan and the withdrawal of the Japanese troops from Siberia.

The special commission from Soviet Russia was then brought up, the Chita representatives favoring the admission of such delegates in special commissions to deal with questions affecting the Moscow Government such as the fishery question. No decision on this point has yet been reached with the result that the Dairen conference, instead of being further advanced by the recess in which the Chita delegates supposedly received further instructions from their government, is still more involved by the addition of a new and important subject of discussion.

In Japanese circles in Peking the explanation given for the lack of progress in evidence at Dairen, is the attitude of suspicion which both delegations maintain toward the motives of the other. On the part of the Japanese representatives it is felt Chita is playing for time and does not wish to come to an immediate settlement. The influence of Moscow is felt, and the fact that after this long recess the only new element added to the conference is the request that Soviet delegates be admitted, is cited as proof of the Chita policy. That Chita also is marking time pending action at the Pacific Conference is also said.

Chita delegates on the other hand feel that Japanese promise in regard to the withdrawal of the troops from Siberia are empty. They maintain the attitude that Japan really intends to keep her forces in occupation in spite of any promise or statement to the contrary and for this reason are very chary of making any agreement the terms of which they cannot feel confident will be carried out.

With such mutual suspicions little headway is inevitable and no constructive steps have yet been reported. It is still hoped that the liberal policy of the new Japanese premier will make itself felt at Dairen and lead to some definite results from the conference in the near future.

Yale-In-China Celebrates Birthday

(China Press Correspondence)

Changsha, Nov. 17.—All the schools of Yale-in-China united yesterday in celebrating the fifteenth anniversary of the founding of the Collegiate School, the beginning from which has developed the present institution, embracing a Middle School, a College of Arts, a College of Medicine and a School of Nursing, with a total enrollment of 390 students.

The morning was devoted to an inspection of the schools and colleges by the relatives and friends of the students. The work of the Middle School was on exhibition in the class rooms, the college laboratories and class rooms were open for inspection, and the Medical School and Hospital threw open their various departments to visitors. In each class room students acted as guides and explained to the guests of the day the significance of the various work on exhibition and the uses of the various kind of equipment.

At one o'clock on the main soccer field, the Yale team lined up against that of the I Chih School of Slangtan, which seems in a fair way to become the chief athletic rival of Yale-in-China—the Harvard of the Orient. The game was well played and stubbornly fought, ending in a scoreless tie. Following the game, the students presented on the campus, a series of historical scenes marking important steps in the progress of the school. The curtain went up on a scene depicting the appearance of the first foreigner on the streets of Changsha. The advent of Yale-in-China was shown by the conducting of an early entrance examination by one of the founders, in the late fall of 1906. Political events of the times were reflected in a scene of mourning for the death of the Emperor Kwangsi in 1908 and by the rigorous slashing of queues following the Revolution in 1911.

DEVELOPMENT IS PICTURED

The development of the school was steady during these year—in 1910 it was the only foreign school in the city which was not destroyed by the rioters, a scene which the College Freshmen acted with keen enjoyment and no little realism!

Then in 1912 came the graduation of the first class from the preparatory school — presented now with due solemnity by the present first year students of the Middle School.

An interlude to the historical scenes was provided by a threefold presentation of athletic development—first the boy, who, when asked what he did for exercise, replied "I eat with my friends;" then the first calisthenics, performed in full panoply of gowns, high satin boots and queues; and finally, the calisthenics which are an every morning feature of the campus now.

The next scene was of the period directly following the removal of the school from the city to the present spacious campus, and showed Governor Tan laying the cornerstone of the Hunan-Yale Hospital, which was the gift of a Yale alumnus, and which has been regarded during its four years of operation, as one of the finest hospitals in China.

ACTIVITIES DURING 1918

Then came a portrayal of Yale's activities in the political disturbances of 1918, gathering the wounded and caring for refuges in the hospital. This scene was capably done by the students in the Medical College and the School of Nursing. They also presented three steps in the history of foreign medicine in Changsha, the first foreign medical practice, Dr. Hume's first operation at the old hospital, and finally a typical group of patients entering the hospital now.

The historical outline was ended by a portrayal of some of the activities of the College Y.M.C.A. in teaching poor boys of the city.

The formal part of the fifteenth anniversary celebration took place at five p.m. in the Atterbury Memorial Chapel. The entire student body of the Academic and Medical Department was present, as well as such pupil nurses from the Training School as could be spared from duty. On the platform there were present, in addition to representatives of the Consular Body, a considerable group of Changsha educators, both Chinese and foreign.

Rev. Brownell Gage, Dean of the College of Arts, presided and welcomed the guests in the name of the faculty. Dr. Hume, General Secretary of the Board of Trustees in America, referred to the opening of the Yale Medical School on November 15th, 1906, emphasising the importance of the part played on that occasion by the first Dean of the school, Warren Seabury, and by the three Chinese teachers who stood loyally by the institution even during periods of student strikes. Rev. W. J. Hail, D.D., Dean of the Academic Middle School, spoke of the fact that Yale in America was known as the Mother of Colleges, that her motto was service, and that the concluding line of the Yale College song "For God, for Country and for Yale" might well be the motto by which students at Yale should be inspired.

The Governor of Hunan, Chao Heng-ti being unable to attend the ceremony, his representative, Mr. Tseng, Provincial Commissioner of education, brought a message from government circles, congratulating Yale on its work during the past fifteen years and expressing the hope that Chinese and foreigners might work together in increasing measure during the years to come.

The oration of the afternoon was given by Dr. Henry T. Hodgkin, M.A. of Cambridge University, Secretary of the Secretary of the Society of Friends in England.

The chairman of the Hunan-Yale Educational Association, Mr. T. K. Tsao spoke briefly of the medical outgrowth of the plans of Yale-in-China, an alliance having been formed between the Hunan Association for the promotion of medical education and the Yale-in-China faculty. He pleaded for a larger share in medical responsibility by those who should graduate at Yale. The College Glee Club furnished music at several points during the program.

The long day of celebration ended with a lantern lecture in the evening, with travel pictures of China.

8,000 Armenians Let Die By Turk

(Reuter's Service)

London, Nov. 22.—The first report by Colonel Rawlinson, who has lately been released by the Turks, has been received in London and gives an appalling account of conditions in Asia Minor.

It says that nine thousand Armenian prisoners from Kars who have been employed in labor gangs in the neighborhood of Erzerum, have all perished except about 800. The victims have been replaced by Greeks, deported from the coast districts, whose death in the winter Colonel Rawlinson considers certain.

TEXACO
TEXACO CRATER COMPOUND
The Great Gear Lubricant
Texaco Crater Compound is a special lubricant for heavy gears and wire rope. It preserves gears; shields them from dust and dirt, prevents friction, and eliminates machinery noise. Use "Crater" on all heavy gears working under conditions of extreme pressure. It clings to gear teeth when nothing else will, but is fluid enough to allow free lubrication.
As a preservative for wire rope and chains, Texaco Crater Compound is invaluable. It forms a film of lubricant which protects from the action of weather, chemical fumes and contaminated water.
Wire rope and chains coated with "Crater" will last twice as long.
Gears lubricated with it will work noiselessly and more efficiently.

New Storm In Filipino Politics

(Special To The China Press)

Manila, Nov. 17 (delayed).—The political atmosphere of the Philippines, until recently somewhat clouded as a result of opposition in the Senate to some of Governor General Wood's appointments, is now clearing. Much of Filipino politics is merely a tempest in a teapot, the Senators being displeased because Osmena, who is president of the House and president of the Nacionalista party, has been consulted frequently by Wood as was also Rafael Palma, who has been promoted to the presidency of the Senate during the illness of Senate President Manuel Quezon.

Palma is an Osmena man and many think that the present illness of Quezon has enabled Osmena to permanently entrench himself as the nation's leader.

Quezon, wiring from a sickbed at Baguio, states, "I have nothing to give out regarding the alleged opposition in the Senate towards Governor-General Wood's appointments except to deny it as far as I am concerned. The Senate is not taking that attitude. Some of the Governor-General's nominations have already been confirmed. Those pending, are, as I understand the matter, simply being carefully considered. I am sure the merits or demerits alone in each case will determine the action of the Senate.

"No nominations sent to the Senate have been disapproved and the Senate, acting within its constitutional powers, has the right to keep these nominations pending until it is satisfied whether they should be confirmed or not. All my information shows that the Senate desires to co-operate with Governor-General Wood and will give its support as far as it conscientiously can."

Many Senators interpret Governor-General Wood's statement that he is ready to discuss the matter before a Senate committee as meaning that hereafter he will consult a committee before submitting nominations. Governor Wood understands the political complications involved in the Senate stand and is confident that his appointments will be confirmed.

PEKING PLEASED BY CUSTOMS NOTE

(Reuter's Pacific Service)

Peking, Nov. 20.—It is learned from official sources that the Waichiaopu has received a reply from the Diplomatic Corps which met yesterday to discuss its request for the release of the Customs surplus, and that the Government is well satisfied with the friendly tone of this communication, which indicates appreciation of the financial difficulties with which the Government is confronted.

It is stated however, that the Inspector-General of Customs, Sir Francis Aglen, contended that since the Customs surplus had been set aside for the Consolidated Debt Service it could not be used for any other purpose, and this argument does not meet with the entire concurrence of the Government.

The Chinese authorities point out that a few days prior to the allocation of the Customs surplus for the Consolidated Debt Service, the Banks of China and Communications had made advances for loan purposes. The Government believes that these two matters cannot be considered separately as, if the Government cannot repay these advances, there is a danger that the banks will be unable to redeem their notes owing to their support of the Debt Service. The failure of the banks, it is asserted, would have an adverse effect on the value of the Consolidated Loan bonds on the market.

It is further argued that the Customs surplus will amount to eight million taels at the end of the current year, whereas two millions of taels is ample for the requirements of the Consolidated Debt Service; and that, in the interests of China, Sir Francis Aglen should therefore reconsider the question of releasing the balance of six million taels.

VICKERS CO. MAY TELL CHINA PAY

(China Press Correspondence)

Peking, Nov. 20.—Troubles have recently developed in the Chinese Aeronautical Department over the actions of one of its foreign employes during the absence of Director-General Pan.

According to the terms of the British Vickers Company loans with the Chinese Government a certain number of foreign experts and advisors must be retained by the department, and it was one of these men, according to the Chinese papers, who caused the present situation in the aeronautical department.

A petition was sent to the cabinet for necessary funds for the department by this foreign official and as he did not have the proper authority to request such funds, the petition was refused. Thereupon the official resigned and reported at the British Legation that the Chinese Government was not sincere in carrying out the aerial service and that therefore the Vickers Company should immediately demand payment of principal and interest on the loan. He at the same time wired the Vickers Company to the same effect urging it to stop further advances to the aeronautical department.

In order to clear up this situation Mr. Pan is reported to be hurrying back to Peking and to have urged the foreign official to withdraw his resignation and return to the department. Chinese sources give no definite information as to the outcome of the controversy but state that the trouble is not yet over and that the foreign official is demanding that certain Chinese officials be removed from the department before he will consider returning.
